

Gender Sensitization Awareness Program

Date: 28-09-2024

The Sexual Harassment or Grievance Redressal Committee of the College organized a gender sensitization awareness program in the new building. Two resource persons, Dr. Sudhir Kumar Saklani and Dr. Arvind Kumar Verma, delivered lectures on sexual harassment and gender equality, respectively. Dr. Saklani focused on sexual harassment activities and legal measures to prevent them. Dr. Verma elaborated on gender equality and various issues related to gender inequality.

All staff members and approximately 150 students were present during this lecture series.

Here are some of the key points from the program:

- Sexual harassment is a serious issue that can have a devastating impact on victims.
- There are legal measures in place to protect people from sexual harassment.
- Gender equality is essential for a just and equitable society.
- There are a number of issues related to gender inequality, such as discrimination and violence against women.

This program was an important step in raising awareness about gender sensitization and sexual harassment. It is hoped that this program will help to create a more safe and respectful environment for all students and staff.

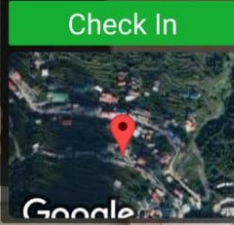

Here are some additional things that the college could do to promote gender sensitization:

- Develop a clear policy on sexual harassment.
- Provide training to staff and students on sexual harassment prevention.
- Create a safe and confidential reporting system for victims of sexual harassment.
- Offer support services to victims of sexual harassment.

By taking these steps, the college can help to create a more welcoming and inclusive environment for all students and staff.
